SUMMARY

Software Engineer with 1 year of experience building responsive and scalable web applications using **.NET Core, ASP.NET MVC, ADO.NET**, and **SQL Server**. Proficient in **REST APIs**, database optimization, and backend architecture, with a proven ability to deliver reliable, efficient, and business-focused solutions.

SKILLS

Frontend : HTML5, CSS3, JavaScript, Angular, Bootstrap

Backend : ASP.NET Core MVC, Web Forms, Web API, C#, ADO.NET, Entity Framework, LINQ

Databases : SQL Server, MySQL

Tools & Technologies: Version Control(Git/GitHub), Postman, IIS, Agile SDLC

EXPERIENCE

Golds Systems & Communications (Client: Indian Commodities), Mumbai Feb 2025 – Present

.Net Developer

- Developed and maintained scalable DMS web applications using ASP.NET Core MVC, C#, ADO.NET, and modern front-end tech (HTML, CSS, JavaScript, Bootstrap).
- Boosted system performance by 30% through SQL Server query and stored procedure optimization.
- Designed and integrated secure RESTful APIs for seamless third-party system interoperability.
- Managed IIS deployments, server configurations, and hosting for high availability.

Oceanic Origin Shipping (OPC) Pvt Ltd | Mumbai

Oct 2024 – Feb 2025

Web Developer

- Developed and deployed *ShipMate*, a full-featured shipping management system using ASP.NET Web Forms, ADO.NET, and SQL Server.
- Designed, built, and hosted the company's official live website using HTML, CSS, Bootstrap, and JavaScript.
- Implemented secure role-based access control, staff management modules, and optimized database performance with stored procedures.
- Automated key operations, reducing manual tasks by 20% and improving overall workflow efficiency.

PROJECTS

1. **AoneLeathers E-Commerce Web App – ASP.NET, C#, ADO.NET, SQL Server, RESTful APIs**
Developed a responsive e-commerce platform with secure payments, inventory management, and dynamic product listings. Strengthened backend API integration and database optimization skills.
2. **Student Management System – ASP.NET Core MVC, C#, ADO.NET, SQL Server**
Built a web app for admissions, class assignments, and staff management with full CRUD functionality, improving proficiency in MVC architecture and database operations.
3. **Personal Portfolio Website – HTML, CSS, JavaScript, Bootstrap**
Designed a responsive portfolio to showcase projects, enhancing frontend UI/UX design skills.
Live Demo -- <https://kaifansari-17.github.io/Portfolio-Website/>
4. **HRMS (Human Resource Management System) – ASP.NET Core MVC, C#, REST APIs**
Built modules for employee records, payroll, attendance modules, strengthening backend logic and scalable backend solutions.
5. **Oceanic Origin Shipping Website – HTML, CSS, JavaScript, Google Sheets backend**
Designed and deployed company website with responsive layout and domain/hosting setup, strengthening full-stack web development and deployment skills.
Live Website -- <https://oceanicoriginshipping.com/>

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

2021 - 2024

Mumbai University

[with CGPI 8.0]
